

HERENCIA

INSTAGRAM LAUNCH PLAYBOOK · V2

The Post-by-Post Edition

Every post with its date & time, purpose,
ready-to-paste caption, and an image prompt for Stitch.

How to Use v2

This edition turns the v1 strategy into a literal calendar. Dates are anchored to a **launch on Thursday, 23 July 2026** — if you launch another day, shift every date by the same amount but **keep the weekdays and clock times** (they're chosen for Egyptian Instagram traffic: lunch 13:00, prime 20:00–21:30, and Thursday/Friday = weekend energy).

The Stitch style block — append to EVERY image prompt

Each post below has its own specific prompt. To keep the whole grid looking like one brand, paste this after every prompt:

STYLE: luxury heritage perfumery editorial photography. Palette: deep espresso brown (#241111), rich maroon (#4B1D1D), antique gold (#C29A5B), warm cream (#F5EBC6). Warm directional window light with soft shadows, marble or dark aged-wood surfaces, silk fabric accents. Cinematic shallow depth of field, photorealistic, high detail. Moody, quiet, expensive. No text, no logos, no watermarks, no people's faces. Portrait 4:5.

AI images vs. real photos — the honest rule

Tag	Meaning
AI OK	Mood, materials, textures, backgrounds — Stitch output is safe to post as-is.
REAL PHOTO	Your actual bottle, label, sample box, packed orders, receipts, screenshots. AI cannot reproduce your crest/label and followers WILL zoom in. Use the Stitch prompt as a <i>lighting & composition reference</i> , then shoot the real thing to match it.

Proof posts must never be AI. One fake-looking unboxing costs more trust than ten great posts earn. For reels, prompts describe the shot list — film with your phone.

Teaser Week (16–22 July)

T1 · Reel — "Something is maturing"

Thu 16 July · 20:30

PURPOSE

Open the account with mystery; earn the first follows without revealing the product. AI OK (or film the real materials)

STITCH PROMPT

Slow cinematic close-up scene: raw perfume materials laid on dark aged wood in near-darkness – oud wood chips, saffron threads in a small brass dish, amber resin pieces, a dried rose. A single warm shaft of light cuts across them from a high window, most of the frame in deep shadow. Dust particles visible in the light beam. Mysterious, reverent atmosphere. + STYLE BLOCK

CAPTION

Some things should not be rushed.

For months, behind closed doors, something has been maturing in Cairo.

HERENCIA — heritage perfumery, crafted in Egypt.
Doors open 23.07. Follow to be first.

T2 · Carousel (3 slides) — The crest reveal

Sat 18 July · 13:00

PURPOSE

Introduce the name and its meaning; plant the "inheritance" story. Slides 1 & 3 AI OK, slide 2 REAL PHOTO (your actual crest, macro).

STITCH PROMPTS (ONE PER SLIDE)

S1: Extreme macro of an embossed gold wax seal pressed into deep maroon paper, catching warm light, surrounded by darkness. + STYLE BLOCK S2: [REAL] Shoot your crest/label macro to match S1's lighting. S3: A single antique brass key resting on folded cream silk beside a small dark perfume bottle silhouette, symbolizing inheritance passed down. + STYLE BLOCK

CAPTION

HERENCIA means inheritance.

The scents our grandfathers wore were not "products". They were compositions — matured, personal, worn like an heirloom. We are bringing that back.

Composed by hand in small batches. Matured for months. Bottled in Egypt.

23.07. ❤️
